

JIMSA

JOURNAL OF INTERNATIONAL MEDICAL SCIENCES ACADEMY

April - June 2014
Vol. 27 No. 2

FROM EDITOR'S DESK

Dear Colleagues,

JIMSA, as you are well aware, addresses to the needs of all disciplines of medicine. Publication of special issues and symposia, focussing on the topics of current interest, has generated immense enthusiasm amongst the fellows and members of the academy. During the last decade or so, several specialists and even teachers from the medical institutions, have come forward to contribute to JIMSA. We, in the editorial board of the journal, are committed to make JIMSA internationally recognized; allout efforts by all us are required to achieve this goal.

Friends, I take pride in presenting to you a medical bonanza- **Special Issue** on '*Recent Advances in Paediatric Surgery*'. Publication of this issue has been possible due to the unstinted efforts of **Prof. V. Raveenthiran and Prof. Yogesh Kumar Sarin**; both of them are internationally renowned Paediatric Surgeons. I am extremely grateful to them and also to several other experts who have contributed to this issue. Selection of the topics has been excellent; some of the latest techniques and treatment advances have been amply highlighted.

I am confident, readers of JIMSA will appreciate that a commendable task has been achieved and will most certainly, find this monogram useful for their personal libraries.
