PRESIDENT WRITES

Dear Fellows & Members,

This issue of our journal has chosen the most important diagnostic modality, namely-imaging. In the past decade there is an explosion of knowledge in various aspects and application of the same. The invention of CT Scan by Dr. Godfrey N. Hounsfield and its introduction into medical practice in October 1971 has given a real impetus to the progress of imaging. The imaging today includes the non invasive studies covering almost all organs of the body, even the functional aspects, with minimum level of harmful radiation and other side effects.

I am sure, our fellows and members, are aware of the ensuing conference being held on 5th & 6th October 2013 at Rajarajeswari Medical College & Hospital, Bangalore. Royal College of Physicians and Surgeons of Glasgow is going to join hands with IMSA for this event.

K. Jagadeesan
Dr. K. Jagadeesan
President, IMSA
