

JIMSA

JOURNAL OF INTERNATIONAL MEDICAL SCIENCES ACADEMY

January-March 2013
Vol.26 No.1

FROM EDITOR'S DESK

Dear Colleagues,

Twentieth Century has seen enormous progress in the field of imaging. JIMSA published a special issue on “**Advances in Imaging**” in early 2001, edited by **Prof. S. K. Bhargava**. It was very much appreciated by fellows & members of IMSA. During the last decade, several revolutionary developments have taken place in the field as digital imaging, multislice CT, newer sequences in MRI, PET, fusion imaging, are some of the achievements. With the help of these latest advances, we have been able to delineate minor details of the organs afflicted by diseases. In order to apprise the readers about some of the newer developments, this issue has been planned.

The present issue on “**Imaging in the Twenty-First Century**” has, once again, been compiled and edited by **Prof. S. K. Bhargava**, formerly Head, Department of Radiology at UCMS, Delhi, India. His keen interest and pains taking efforts in bringing out this exhaustive and very informative monogram on imaging, deserves all the appreciation. I am confident, the readers of JIMSA will find the publication of immense benefit and will most certainly like to preserve a copy in their personal library. I wish to extend my gratefulness to Prof. Bhargava and the galaxy of experts who have contributed to this issue.

P. D. Gulati

JIMSA BEST PUBLISHED ARTICLE AWARDS 2012- Declared

The following articles have been selected for the “JIMSA Best Published Article Awards – 2012” as per ranking given below:
