

experts.<sup>7</sup> The group members and “go-to” experts can lend support to any radiologist who is facing difficulty in conducting/interpreting pediatric radiology procedure. The quick modern day communication systems provide ideal infrastructure for such endeavors. India also needs to have a journal exclusively dedicated to pediatric radiology.

While raising task force for looking after needs of pediatric patients is an urgent priority, retaining of expert pediatric radiologists is an evolving issue. Brain drain has plagued India for several decades and care should be taken to ensure that the same does not happen to pediatric radiology experts. Better career prospects abroad, compared to India, pose a serious threat for retaining the talent in India.

ISPR is now liaising with pediatric radiology societies of other countries. This mutual interaction will pave way for expanding knowledge base and, ultimately, improve patient care. In addition, this will also help to put Indian research and expertise on the international canvass. The World Federation of Pediatric Imaging (WFPI) has recently been launched for providing a united platform for pediatric radiology organizations looking to address global challenges in pediatric imaging.<sup>8</sup> ISPR is going to be member of WFPI in near future.

In conclusion, the past growth of pediatric radiology in India has been unorganized. However, recent developments suggest that pediatric radiology in India will grow rapidly and systematically. However, the demand for dedicated pediatric radiologists will continue to be low. Since a vast majority of adult radiologists practice pediatric radiology also, their needs should be addressed to improve patient care. Collaboration at national and international levels will increase in future and lead to better patient care services.

## GUIDELINES FOR AUTHORS

The Journal of the International Medical Sciences Academy (JIMSA) is published quarterly on behalf of the International Medical Sciences Academy in the last week of January, April, July and October.

### UNDERTAKING BY THE AUTHOR(S)

The authors should provide a written undertaking signed by the senior author/ authors that article submitted has neither been published elsewhere nor sent for publication at the time of submission.

### COPYRIGHT / DISCLAIMER

The Editorial Board reserves the right to modify articles so as to conform to the Journal style and standard. The views expressed in the articles will however, remain the opinion of the authors and the Editorial Board accepts no responsibility. JIMSA assumes no liability or responsibility for the accuracy, completeness and usefulness of the information contained in the published articles.

### MANUSCRIPT SUBMISSION

The manuscript of the article should be submitted in triplicate, typed in double space on standard A-4 size with 3 cm margin all around and should be sent to the Editor JIMSA, 2<sup>nd</sup> Floor, National Medical Library Building, Ansari Nagar, Ring Road, New Delhi-110029 India. Update/Review article, Original article should not exceed 10-12 typewritten pages; case report, brief communication, procedure, current drug therapy-6 pages. The article should be preceded by an abstract not exceeding 350 words; keywords, where ever relevant, should be given below the abstract. The original manuscript should be arranged in the following sequence: title page with address for correspondence, abstract, introduction, material and methods, results (or case report) discussion, table, legends to figures.

**CD with complete write up as given above including figures and legends, must accompany the article.**

### References

Number should not exceed 25 for update/review, 15 for original article, 8 for brief communication, case report, procedure and current drug therapy

and 3 for letter to the editor (correspondence), the names of all the authors should be mentioned up to three; if more than three, the first three names should be mentioned, followed by et al. The style of reference should be as follows: Mathur SM, Bhaskar K, Patel BD, et al. J Bronchoalveolar lavage, J. Assoc. Physicians India 1984, 32:974-984.

### Chapter from a book

Fulphus SW, characterization, isolation and purifications at cholinergic receptors in motor Innervations of muscle; edited by Sloff S, Academic Press London 1976; page 1-26.

**Tables**, if any should be at the end of manuscript.

### Illustrations

These should be on glossy paper and submitted in triplicate. The figure number, article title and top of illustration should be indicated on the back of photograph along with details of the individual illustration.

### Letter to Editor

Letter to the editor may comment on articles published in the journal or may provide original data or information. Letters commenting an article should be received within six weeks of publication, such letters will be forwarded to the senior author of the article, reply is expected within six weeks. In the absence of the reply, the letter will be published with a note standing.

### On line submission of the article

Full article with photograph and tables can be submitted by E-mail: [imsawhq06@gmail.com](mailto:imsawhq06@gmail.com)

### ADVERTISING POLICY

The journal accepts advertising by Pharmaceutical firms / medically related equipment manufacturers at the tariff rates prescribed by the Editorial Board. Special Frequency discounts and special positions are available. However, JIMSA reserves the right to reject any advertisement considered unsuitable.

The appearance of the advertisement or any product information in different sections of the journal does not mean endorsement or approval of its quality or the claims made by the advertiser.
