PRESIDENT WRITES

Dear Fellows, Members and Associate Members

This issue of the journal of our academy has many good articles. It is time for the clinicians and thyroid surgeons to pool their data for the incidence of papillary carcinoma in the era of pre and post iodisation of common salt. One of the eminent thyroid surgeon after screening through about 32000 thyroid nodules, has put forward the proposition for a relook on the incidence of this condition.

I think, our fellows will certainly look into these aspects and make appropriate suggestions.
