## FROM EDITOR'S DESK

Dear Colleagues

*This special issue "Recent Advances In Paediatrics" comprises of 13 articles, authored by outstanding experts from the field of paediatrics. The issue highlights some of the new concepts in the understanding and management of common childhood disorders: there are new guide lines and new vistas for research for the younger paediatricians.*

*This publication is the outcome of hard work and untiring efforts of Dr. Kamlesh Chopra a senior consultant paediatrician at New Delhi, India. Her team of contributors have done a magnificent job in brilliantly preparing the various manuscripts within the stipulated time. I am confident that this publication will be of immense benefit for the readers of JIMSA. No doubt, a commendable task has been achieved, for which I am extremely grateful to Dr. Kamlesh Chopra and other contributors of this issue.*

*I must acknowledge the assistance rendered by the members of the editorial and advisory boards in the compilation of this issue. I also extend my thanks to the various pharmaceutical firms and other advertisers without whose help this publication would not have been possible.*
